MenuCoverMan.com

General Information

Most of our menu covers can be customized with your logo or establishment name by fabricating a metal die to imprint your logo onto your product. Foil stamping (imprinting and recessing with color), Blind Debossing (imprinting and recessing without color) and Embossing (a raised stamp) are available. You can also choose from select products or styles that utilize a full color image.

LOGO REQUIREMENTS FOR FOIL STAMPING

Please email your logo to hello@MenuCoverMan.com in one of the following formats:

- Black & White ■ .eps, .ai (recommended) ■ 300dpi .jpg or .tif format at full size ■ Fine lines, 5pt minimum ■ Lettering 24pt minimum.

ARTWORK RE-WORK FEES

Logos not submitted in a usable format may be subject to a \$90 / hour rework charge with your approval.

TYPESSETTING

A \$90.00 charge will be applied if you require typesetting. This is in addition to the artwork die charge of \$120.00.

Please provide your recommended font style, font size (lettering 24pt minimum), as well as your layout and positioning of the text on the cover.

LOGO LOCATIONS

Logos can be printed in the location of your choice (within cover limitations), however, most customers choose one of the following options:

- Optical Center: About 1/3 down from the top of the cover
- Dead Center: Centered both vertically and horizontally
- Lower Right Hand Corner

FOIL STAMPING / BLIND DEBOSSING / EMBOSSEMENT CHARGES

A one time die fee of \$120.00 (not incurred on re-orders unless the logo or logo size changes) will be assessed for each potential color.

A \$2.00 double run fee will be applied for each additional foil color per menu cover.

FOIL STAMPING AND COLORS

This process involves the fabrication of a metal die that imprints your logo onto the product with the application of foil colors. Some materials may become recessed where the foil imprint is applied. Please note that foil chemical properties can vary from color to color and, therefore, certain product / foil combinations may not be appropriate. Color proofs are provided via email at no additional charge with the receipt of a purchase order.

STANDARD FOIL COLORS

Gold, Silver, Black – Other colors may be available upon request.

BLIND DEBOSSING

This process involves the fabrication of a metal die that imprints and recesses your logo into the product without the application of foil. Color proofs are provided via email at no additional charge with the receipt of a purchase order.

EMBOSSING

This process involves the fabrication of a metal die that creates a raised logo on your product without the application of foil. This option is currently only available for Patina materials. Color proofs are provided via email at no additional charge with the receipt of a purchase order.

EASTMAN DIGITAL ARTWORK

Art must be 300dpi at full size with a bleed, and in .jpg or .tif format.

Set up fees are: 99 covers or less = \$200.00, 100 covers or more = \$125.00.

LASER ENGRAVING

This process involves laser engraving into a real wood composite. A one time \$120.00 die fee applies to this process. Vector artwork (.eps or .ai) is required. Oversized logos may incur an additional pre-approved fee.

PRE-PRODUCTION SAMPLES

Orders for customized samples of products prior to full production runs can be produced. An additional labor / setup fee of \$90.00 will also apply. A one time \$120.00 die fee will apply (not incurred again on full order placement unless the logo or logo size changes).

PROOFS

Color Proofs / Spec Sheets are provided via email at no additional charge for all customized products. Proof approval must be verified and returned via email or fax prior to order proceeding to production. Please note that some changes to proofs may be chargeable.
